

THE MAYBREEZE CENTRE MELTON MOWBRAY

SCOPE:

HSSP Architects were initially appointed to develop concept designs for a new retail development occupying a prominent site in Melton Mowbray. Planning permission was obtained and the project proceeded under a Design & Build procurement route.

HSSP Architects were retained as Employers Architect. Local Contractor Denmans were appointed as Principal Contractor and engaged a second design team from HSSP Architects. Our close knit design teams allowed excellent liaison, whilst our integrity ensured that the client's best interests were served at all times.
